Docket Management System
U.S. Department of Transportation
Room Plaza 401
400 Seventh Street, SW
Washington, DC 20590-0001

To Whom It May Concern:

I am writing to express my deep concern over the Federal Aviation Administration's plans to increase the size and weight of aircraft that are able to land at Teterboro Airport (Docket No. FAA-2003-15495, Federal Register Volume 68, Section 126 dated July 1, 2003) in New Jersey.

Any increase in the size, weight and/or number of aircraft allowed to land at this small airport holds a potentially dangerous safety hazard as well as a devastating impact on the quality of life for the entire area and surrounding communities. In recent years, officials in the Township of Washington have written numerous letters to the FAA, Port Authority, Teterboro Airport, Congresswoman Roukema and Congressman Garrett protesting the current aircraft situation and asking them to minimize the impact of the planes and flight patterns of Teterboro and Newark airports.

We urge you to please review and rescind this unacceptable and unsafe change in weight limitations in this most densely populated county in New Jersey.

Sincerely,

Signature

RECEIVED
2003
JUL 11 AM 11:45

To Whom It May Concern:

I am writing to express my deep concern over the Federal Aviation Administration's plans to increase the size and weight of aircraft that are able to land at Teterboro Airport (Docket No. FAA-2003-15495, Federal Register Volume 68, Section 126 dated July 1, 2003) in New Jersey.

Any increase in the size, weight and or number of aircraft allowed to land at this small airport holds a potentially dangerous safety hazard as well as a devastating impact on the quality of life for the entire area and surrounding communities. In recent years, officials in the Township of Washington have written numerous letters to the FAA, Port Authority, Teterboro Airport, Congresswoman Roukema and Congressman Garrett protesting the current aircraft situation and asking them to minimize the impact of the planes and flight patterns of Teterboro and Newark airports.

We urge you to please review and rescind this unacceptable and unsafe change in weight limitations in this most densely populated county in New Jersey.

Sincerely,

Signature

To Whom It May Concern:

I am writing to express my deep concern over the Federal Aviation Administration's plans to increase the size and weight of aircraft that are able to land at Teterboro Airport (Docket No. FAA-2003-15495, Federal Register Volume 68, Section 126 dated July 1, 2003) in New Jersey.

Any increase in the size, weight and/or number of aircraft allowed to land at this small airport holds a potentially dangerous safety hazard as well as a devastating impact on the quality of life for the entire area and surrounding communities. In recent years, officials in the Township of Washington have written numerous letters to the FAA, Port Authority, Teterboro Airport, Congresswoman Roukema and Congressman Garrett protesting the current aircraft situation and asking them to minimize the impact of the planes and flight patterns of Teterboro and Newark airports.

We urge you to please review and rescind this unacceptable and unsafe change in weight limitations in this most densely populated county in New Jersey.

Sincerely,

Signature
